

**CLIMATE CHANGE SCOPING PLAN
IMPLEMENTATION WORKSHOP**

MEASURE W-2: WATER RECYCLING

Financial Assistance

James Maughan, Assistant Deputy
Director

March 4, 2009

Topics to Cover

- Funding Programs –
Allocations and Status
- Grant/Loan Programs Overview

Grant Programs

- Funding Allocations:
 - \$275 million from Prop 84 (2006)
 - \$650 million from Prop 13 (2000)
 - \$175 million from Prop 40 (2002)
 - \$527 million from Prop 50 (2002)
 - \$4-5 million annually from Federal 319(h) grants

Status of Grant Funds

- As of end of 2008 fiscal year (June 30, 2008), the State Water Board has:
 - Awarded ~\$1.25 billion
 - Executed ~\$994 million
 - Disbursed ~\$646 million
- All bond fund projects currently suspended

Programs Fund:

- Watershed projects
- Nonpoint source projects
- Water recycling facilities
- Wastewater treatment facilities and upgrades
- Groundwater projects
- Clean beaches projects
- Agricultural water quality projects
- Integrated water quality, supply, flood control projects
- Storm water projects
- Areas of Special Biological Significance (ASBS)
- Seawater intrusion projects
- Dairies projects

Funding Programs Overview

- State Revolving Fund (SRF) Loan Program
- Water Recycling Funding Program
- 319(h) Federal Grant Program

SRF Loan Program

- Sources: federal grants, state funds, revenue bonds and stimulus
- Low-interest loans for construction of publicly-owned wastewater treatment facilities, local sewers, sewer interceptors, water reclamation facilities, storm water reduction/elimination, estuary protection/enhancement, and nonpoint source projects

SRF Loan Program (cont.)

Stimulus

Total nationwide allotment of \$4 billion for CWSRF
California portion expected to be ~\$280 Million

- Not less than 50% for grants
- Priority for projects ready to proceed to construction within 12 months of enactment
- Not less than 20% for green infrastructure

Water Recycling Funding Program

- Grants and loans available for planning, design, and construction of water recycling facilities to augment our state and local water supplies
 - Continuous applications
 - Ready-to-proceed basis
- Grant funding also available to promote research in water recycling

Prop 84 Grant Programs

- Agricultural Water Quality Grant Program
- Clean Beaches Initiative Grant Program
- Santa Monica Bay Restoration Commission
- Areas of Special Biological Significance (ASBS) Grant Program
- Storm Water Grant Program

319(h) Federal Grant Program

- Nonpoint Source (NPS) Implementation Program
Projects restoring impaired surface waters through control of NPS pollution
- ~ \$4.5 million available each year
- Concept Proposal submittal deadline: August 2009, Awards in April
